Private Spa Area

Meersburg

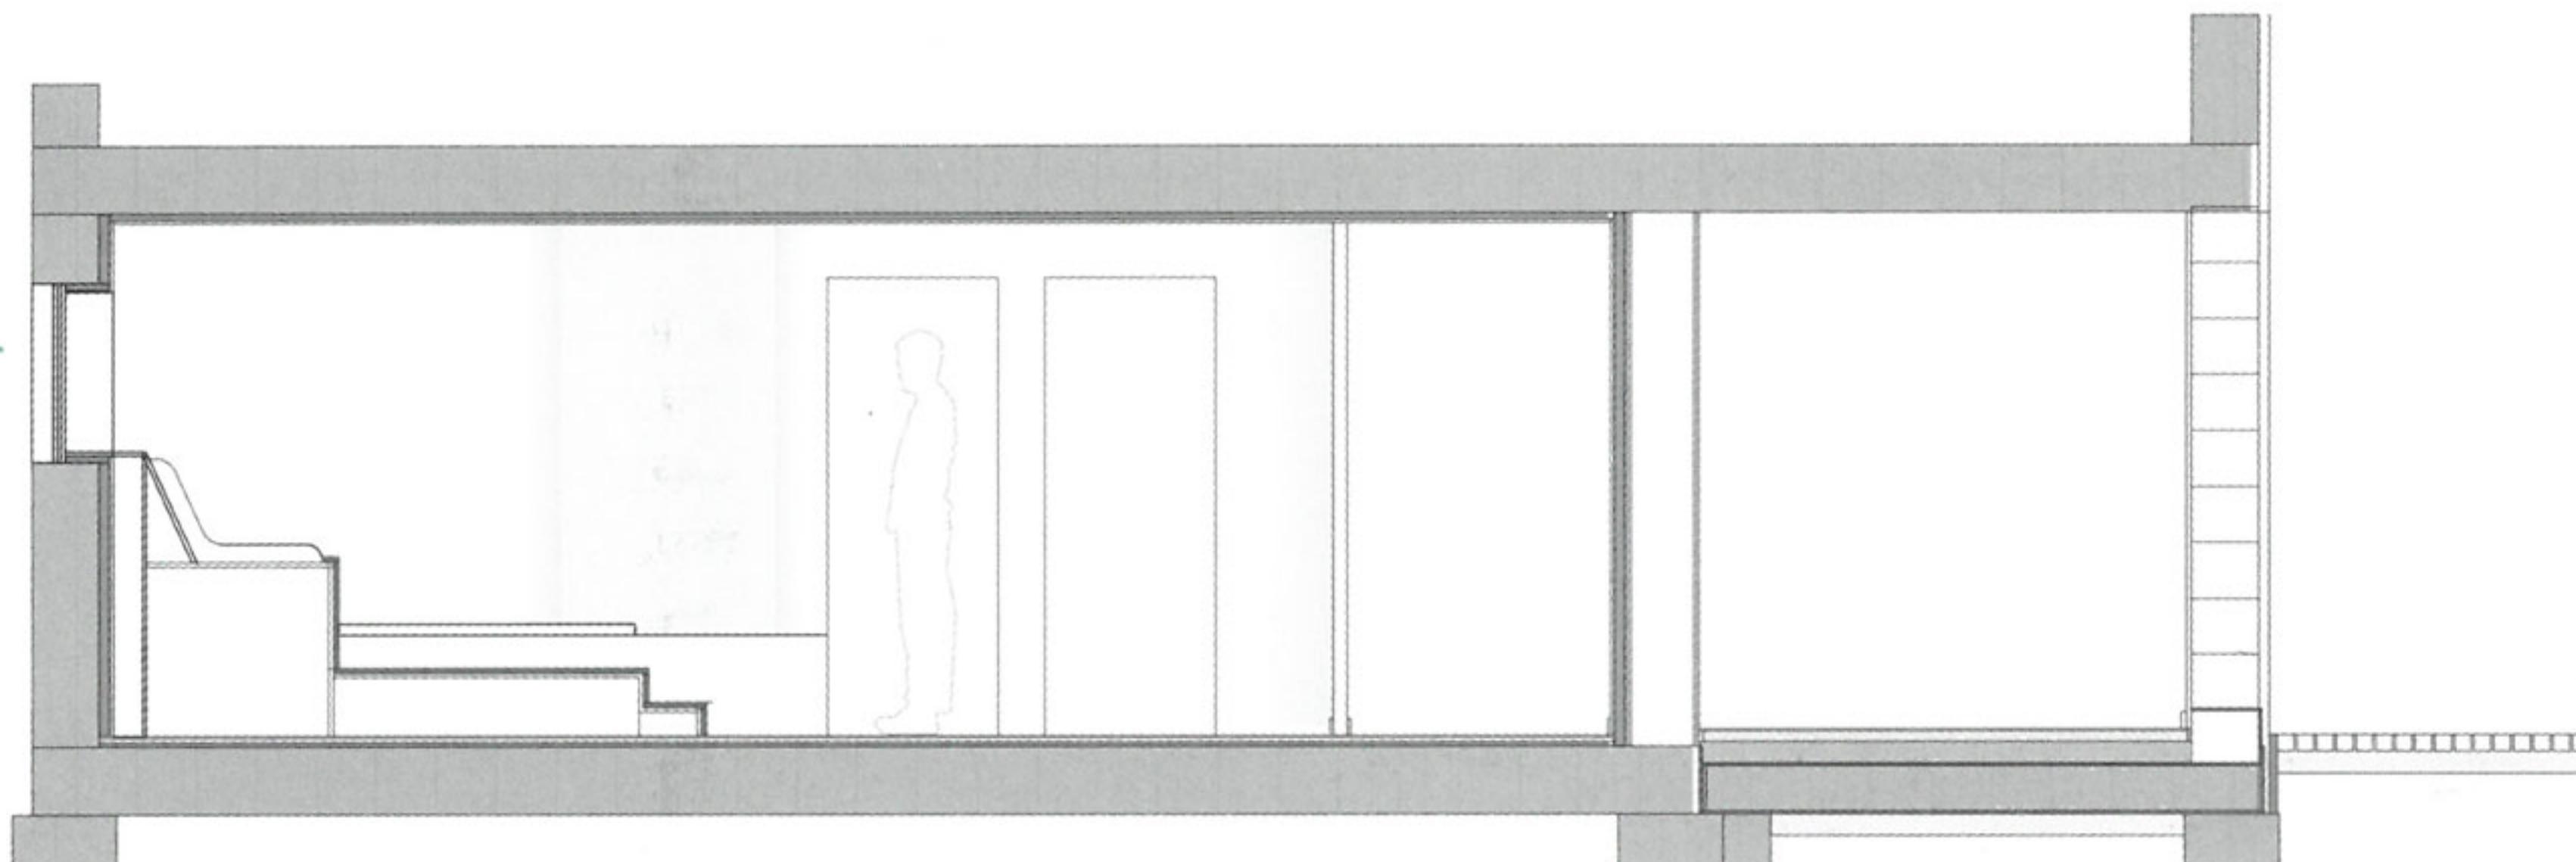

A whirlpool, steam bath, sauna, shower area and a large lounger relaxation section constituted the wishes of the owners for their private spa near beautiful Lake Constance. The focus of the design was on the creation of clear lines and the establishment of a soothing ambiance with nautical elements. The design greatly emphasized soft shapes to create an attractive wellness area with a harmonious overall appearance. The walls inside the space were designed as connecting elements of the individual sections. Resembling the deck of a ship, free-standing teak wood curves were combined with leather upholstery. This created a setting that is an invitation for dreaming and relaxation.

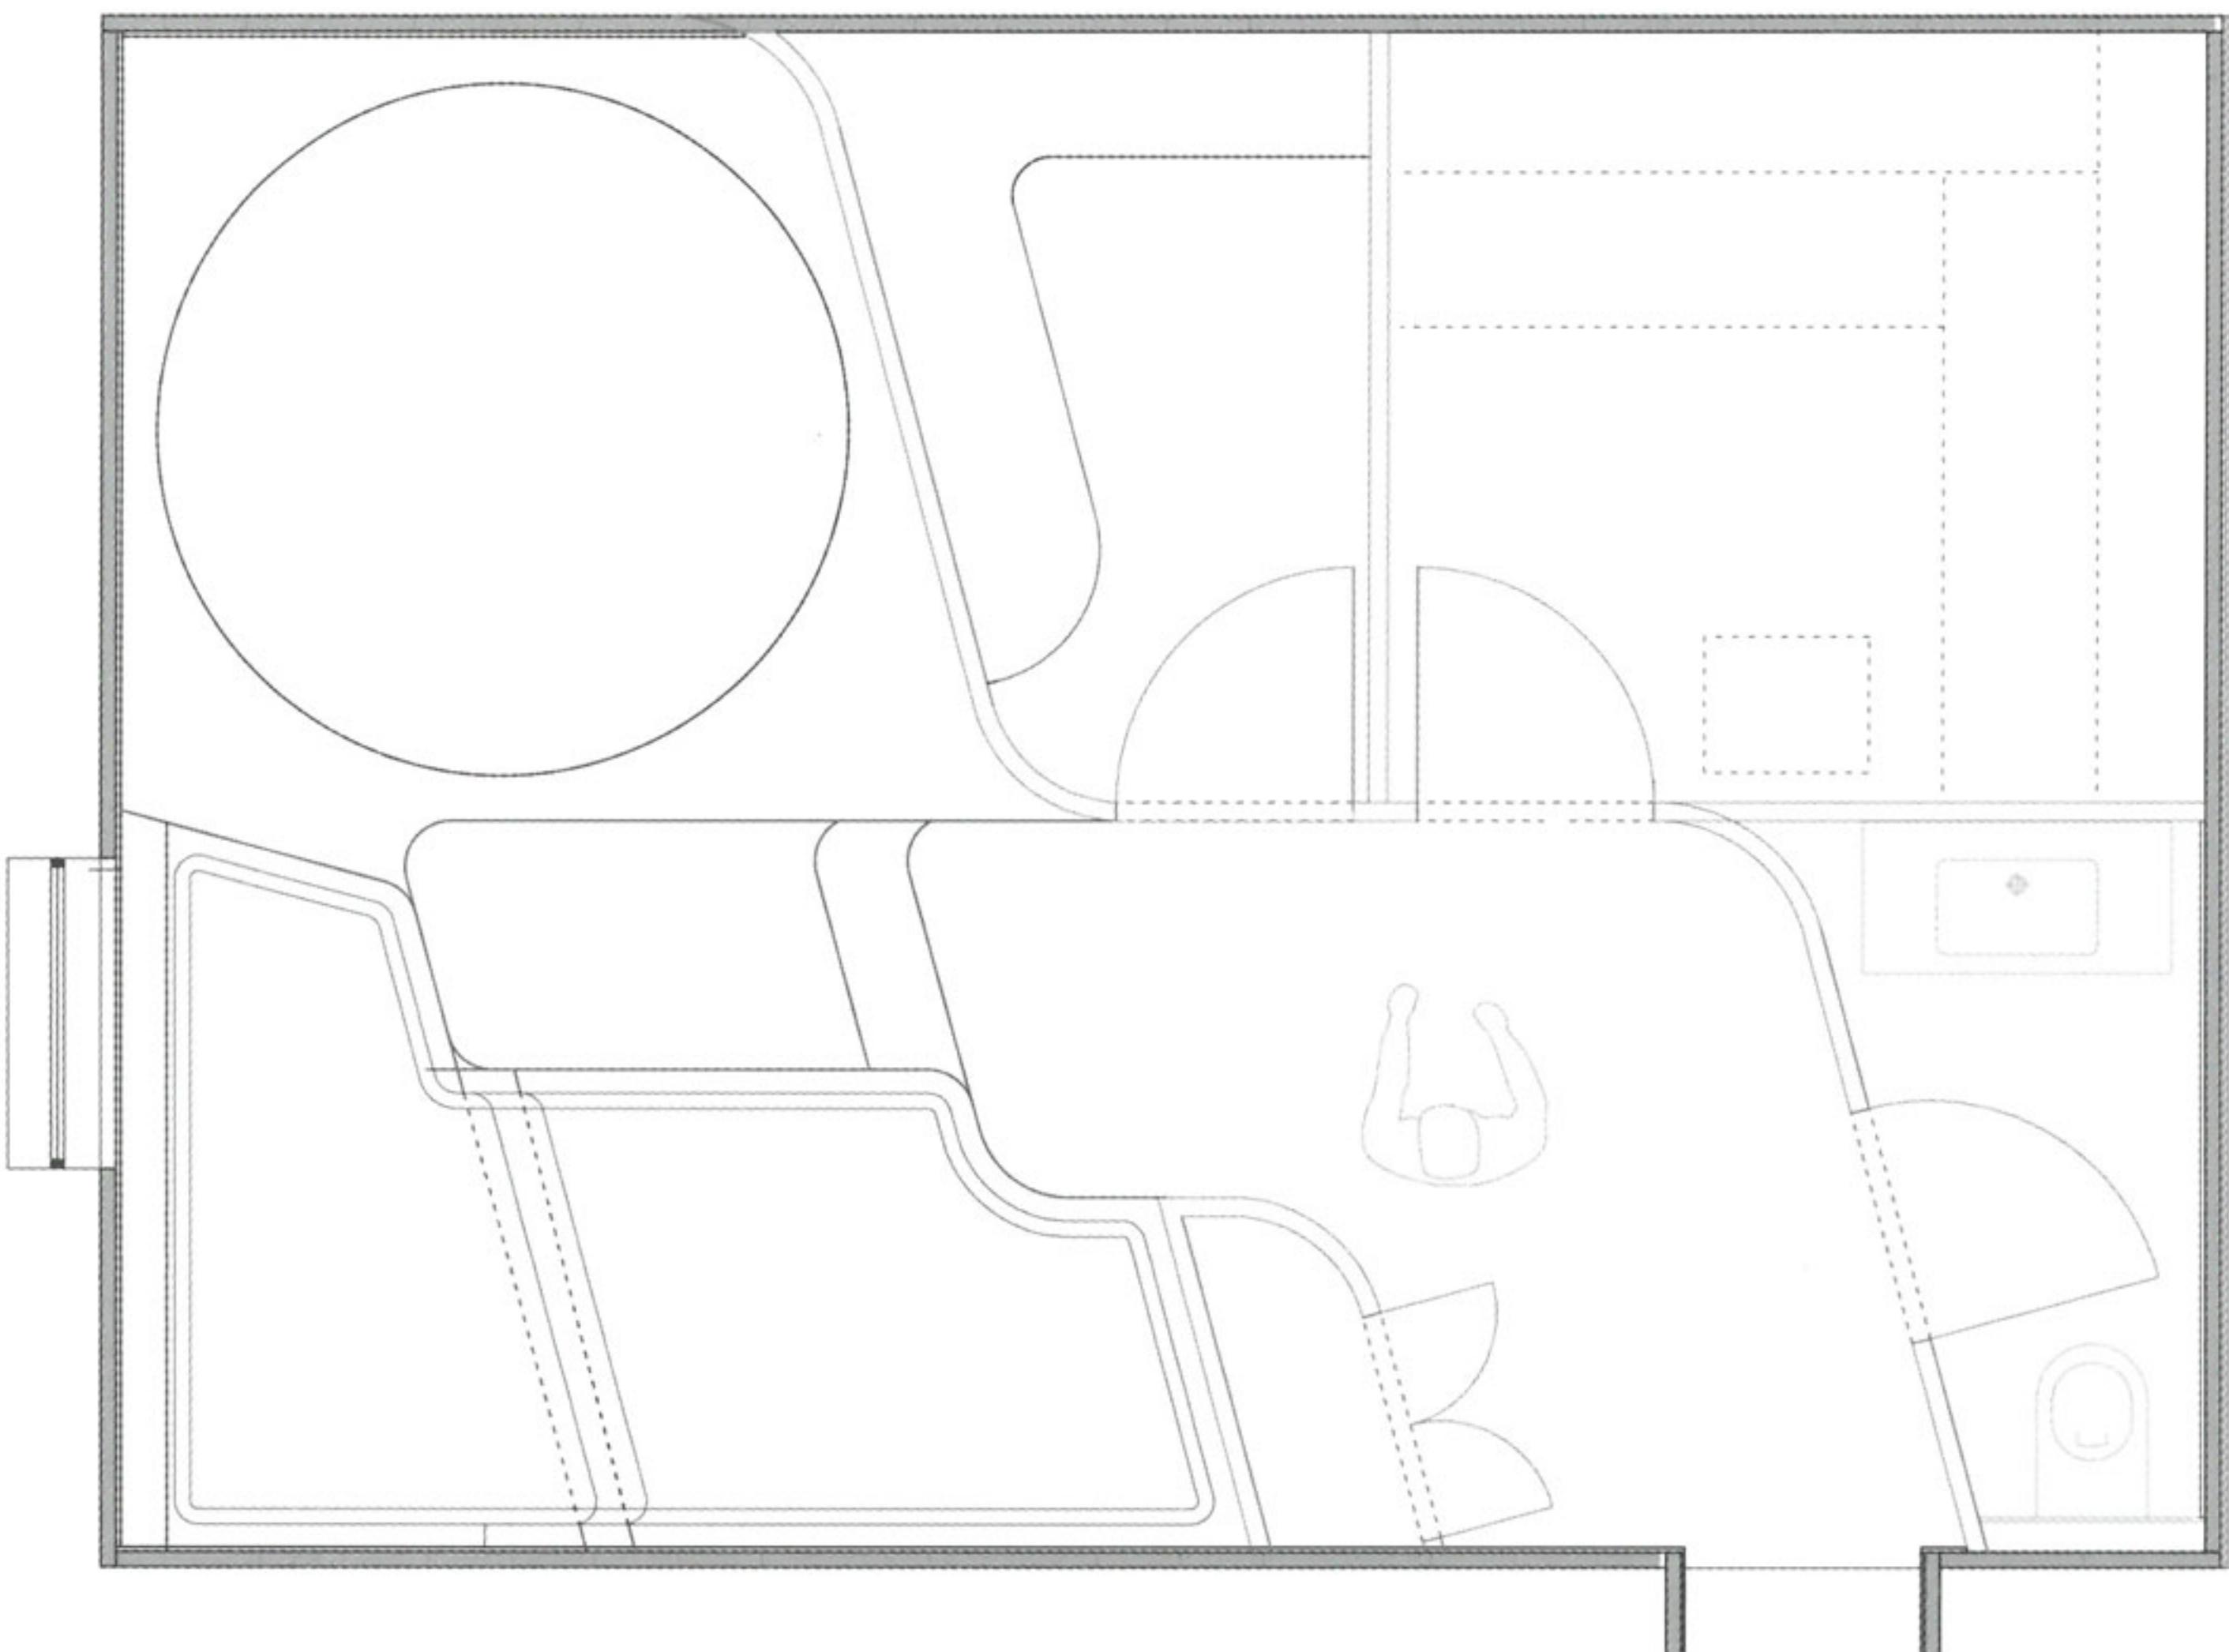

Address: Meersburg, Germany. Client: private. Completion: 2009. Gross floor area: 60 m².
